REASONS FOR ALLOWANCE

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on May 24, 2004 has been entered.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process for hydrodesulfurizing a kerosene and/or gas oil cut to a residual sulfur content of less than 30 ppm as claimed in which the quantity of catalyst used in the first step is about 5% to about 40% by weight of the total quantity of catalyst used in the process. The closest prior art (WO 96/17903) does not suggest this feature of the invention that results in minimizing the overall hydrogen consumption of the process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
